

DEEP UNDERGROUND CHALLENGE

OFFICIAL REVIEW REPORT

1. Competition Overview

We conducted a full review of the projects received by June 30, 2025, for the Deep Underground Challenge. A total of 67 submissions were received and carefully assessed for their relevance and compatibility with the Deep Underground Concept.

After evaluation, the jury determined that five projects fulfilled the basic criteria for success in the competition. The following are the official final results.

2. Results

First Award – Winner of the Competition

Soledar

by Alina Kriuchkova & Kateryna Konshyna

Second Awards

A Sustainable Solution for Future Urban Development

by Valerie

Kiribati Pineapple Project

by Anne Akugbe

Towns and Ant Colony Optimization

by Toui Oonaru & Junya Hirooka

Below Ground, Below Limits

by Zeynep Bilge Yaman & Basak Degerli

3. Conclusion

The Deep Underground Challenge received many creative and ambitious proposals. The projects listed above represent the most relevant and compatible with the competition's concept. We thank all participants for their contributions.
